

## **BLOG POST: Five Easy Jobs You Can Do In Five Minutes To Make Your Home Feel Fresh**

In between working, cooking and having a social life, it can be difficult to stay on top of making your home feel welcoming and a pleasure to come home to. However, you'll be surprised how much you can achieve in just a short space of time.

Here are five easy jobs you can do in five minutes that will make your home feel fresh. So start the clock and get cracking...

### **Minute one: Plump up your sofa cushions**

There's nothing less inviting than a sofa with saggy cushion, especially when you've just come home from a hard day of work and all you want to do is relax in front of the TV with a glass of wine. Spend a minute giving the cushions a good shake. Use your hands to plump them up. It's a great way to relieve stress too!

### **Minute two: Wipe down the kitchen worktops**

Coming down in the morning to messy worktops covered in crumbs is a surefire way to start off the day in a bad mood! With a clean cloth and some eco-friendly surface cleaner, your worktops can be sparkling in 60 seconds.

### **Minute three: Put all dirty clothes in laundry bin**

Are there dirty clothes strewn across the bedroom floors in your home? You're not the only one! Spend a minute grabbing everything that needs washing and putting it in a laundry bin. No more tripping over pairs of jeans on your way to bed!

### **Minute Four: Hang up or neatly fold bathroom towels**

Bathroom towels can get smelly and dirty if left around the house after being used. In under a minute, hang up towels on hooks or neatly fold dry ones and stack on a shelf or in a cupboard.

### **Minute Five: Light a beautiful-smelling candle**

Aaaand relax! The final thing to do is light a smelly candle – and put your feet up.

And that's it! In five minutes, your home will be fresher – and you'll feel happier.
